EDUCATION

University of California, Irvine **Expected Graduation June 2027**
Bachelor of Science, Informatics | GPA: 3.77
Relevant Coursework: Project Management, Requirements Analysis and Engineering, Software Design

EXPERIENCE

UCI Office of Information Technology **Irvine, CA**
Project Management Assistant Nov. 2025 - Present

- Tracked timelines, dependencies, and risks across 17+ AWS migration waves, escalating issues early and coordinating with 20+ department heads and SaaS vendors to keep 12 completed waves on schedule
- Prepared meeting agendas, documented discussion points and action items, and sent regular status updates to stakeholders throughout the migration
- Reconciled 1,353 server records using Excel, SQL, and Power Query, building anti-join logic that flags decommissioned servers automatically and removing 218 from scope to avoid unnecessary cloud costs
- Resolved Power BI refresh failures by debugging M code with Microsoft Copilot, then created standardized templates and documentation to prevent repeat failures

Skechers **Manhattan Beach, CA**
IT Portfolio Analyst Intern Jun. 2026 - Sep. 2026

- Designed, tested, and piloted a Smartsheet resource management process across a 75-project IT portfolio, flagging 12 overallocated team members and earning CIO approval for IT-wide adoption
- Reconciled resource data across 46 projects with IT vertical leads and PMs, giving leadership an accurate staffing view for headcount and resource allocation decisions
- Validated portfolio dashboards against source reports for project counts, RAG status, and CAPEX spend, fixing 137 broken links and documenting 28 start-date discrepancies for leadership reporting
- Collected budget data from 15+ project owners during the annual operating plan (AOP) cycle and wrote documentation guiding them through submissions

MENTOR Global Consultants **Irvine, CA**
Management Consulting Intern Mar. 2024 - Jun. 2024

- Interviewed business leaders, local businesses, and tech startups to document growth challenges for the Greater Irvine Chamber of Commerce
- Delivered a final report with interactive Tableau dashboards that helped Chamber leadership prioritize key growth areas
